

# SIMON WIKSTRAND

## DIGITAL PRODUCT DEVELOPER

Gothenburg, Sweden

(+46) 0763-471916

simon@wikstrand.dev

simonwikstrand.com

Professional digital product developer with 5+ years of experience building applications in startup environments. Experience working with modern tools such as Go, Svelte, Vue.js, Typescript, React.js, Google Cloud Platform and Amazon Web Services.

I thrive when I work with innovative applications where experimentation and exploration is a big part of the journey. I have excellent social skills and enjoy being a communication bridge between technical and non-technical stakeholders of an organisation.

## SKILLS

- » Go
- » JavaScript / TypeScript
- » Vue / React / Svelte
- » MySQL / Postgres
- » Docker / Kubernetes
- » Google Cloud / AWS
- » Terraform / Pulumi

## WORK EXPERIENCE

### CO-FOUNDER

*Minikontrakt AB / Gothenburg, Sweden / 2020 - Now*

**Go, Vue.js, Svelte, Postgres, Google Cloud, Cloud Run, Google Pub/Sub**

- Built the entire architecture for the platform.
- Created the design, user flow and concept.
- Integrated third party services such as BankID, Twilio and Swish.

### FRONTEND DEVELOPER

*Motorit AB / Gothenburg, Sweden / 2020 - Now*

**Nuxt.js, GraphQL, Webpack**

- Worked on the more technical aspects of the website.
- Integration against Episerver to fetch content.
- Introduced proper server side rendering to the project.
- Architected contracts between Episerver and frontend that will support thousands of pages.

### CO-FOUNDER

*Sourceomatic AB / Gothenburg, Sweden / 2018 - 2020*

**Go, Vue.js, Postgres, Google Cloud, Kubernetes**

- Built the entire architecture for the platform.
- Created the design, user flow and concept.
- Built a very advanced question & answer hierarchy that would compose unique results.

## PROJECTS

### PACERANK

2020 - Now

 [Go](#), [Vue.js](#), [Postgres](#), [Google Cloud](#)

In March 2020, I started to build an app during his free time that tracks how much time programmers put into different languages, editors and projects. It is currently in an early MVP stage, but is a good example of my ability to execute on an idea.
